# LifeCanvas

## Summary

### Purpose and Target Audience

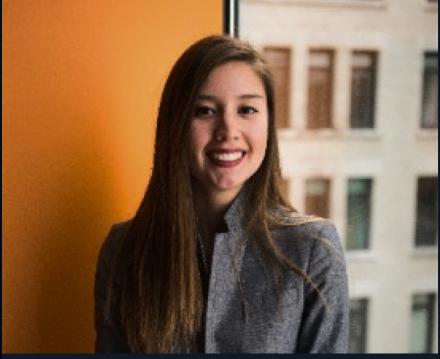

LifeCanvas is a mobile application designed to enrich the daily lives of its users. Its main goal is to assist in task management, improve organizational skills, and provide daily inspiration. The app addresses common challenges such as disorganization and lack of motivation, helping users achieve a more structured and efficient way of life. It simplifies task management and offers a constant source of motivation.

The app is versatile, catering to a wide range of users. It is ideal for individuals keen on maximizing their daily routine and maintaining order, appealing particularly to those who prioritize productivity. LifeCanvas also appeals to those who enjoy journaling, as it enables users to express their thoughts and memories visually and document their daily experiences. Additionally, it serves as a source of motivation and inspiration, offering encouraging quotes and affirmations to positively influence users' mindsets.

## Chris, 42 – Sales Manager

### Lifestyle

Balancing a demanding career with personal well-being is a continuous challenge for Chris.

### Goals

Chris aims to keep his professional and personal life organized while fostering a positive mindset.

Chris is looking for an app that can help him efficiently manage tasks, set reminders, and provide daily motivation and inspiration.

### Needs

Chris needs tools to effectively organize his work responsibilities, appointments, and personal tasks.

For Chris, receiving daily quotes and affirmations is crucial to stay motivated and uphold a positive outlook.

**Chris, Age 42**

Sales Manager

### challenges

Balancing the demands of a high-pressure job with his personal life and well-being.

Staying motivated and positive in the face of daily challenges.

### Motivations

Career success, well-being, and personal growth.

### Usage scenario

Chris can utilize Lifecanvas to make to-do lists, set reminders for important meetings, and begin his day with motivational quotes and affirmations, helping him stay focused and maintain a positive mindset.

### User Interface Preferences

Chris prefers an easy-to-use interface that helps him quickly access his task lists and motivational content.

### Customization and Personalization

Chris values the capability to personalize reminders and choose affirmations that particularly resonate with him.

### Impact

Improved organization, career success, and a more positive outlook on life.

## Laura, 35 – Yoga Instructor and Wellness Coach

### **Lifestyle**

Laura has a strong connection to wellness and holistic living.

### **Goals**

Laura's main objective is to uphold her own well-being, cultivate a practice of gratitude, and offer holistic wellness guidance to her clients.

Laura is in search of an app that enables her to journal her thoughts and emotions, and provides inspiration both for her personal use and to share with her clients.

### **Needs**

Laura needs a tool that facilitates daily journaling and gratitude practice, and also encourages her clients to engage in similar practices.

For Laura, daily quotes and affirmations are essential for maintaining her motivation and inspiring her clients in their wellness journey.

**Laura, Age 35**  
Yoga Instructor & Wellness Coach

### **Challenges**

Laura faces the challenge of balancing a demanding work schedule with her personal life and well-being.

Staying motivated and inspired.

### **Motivations**

Laura places a strong emphasis on personal well-being, the well-being of her clients, and her own spiritual growth.

### **Usage Scenario**

Laura can make use of Lifecanvas to document her daily reflections, express gratitude, and track her well-being journey. Additionally, she can access daily quotes and affirmations both for her personal use and to share with her clients, providing them with inspiration and motivation in their wellness endeavors.

### **User Interface Preferences**

Laura prefers an app with a clean and serene interface that complements her wellness practice and provides a peaceful user experience.

### **Customization and Personalization**

Laura values the ability to customize her daily wellness practice and choose motivational content that resonates with her personally.

### **Impact**

Enhanced personal well-being, improved guidance for her clients, and spiritual growth.

# Max, 30 – Graphic Designer and Photographer

## Lifestyle

Max's life is centered around creativity, art, and the expression of oneself.

## Goals

Max's main objective is to have a platform where he can document his creative journey, capture inspirations, and enhance his artistic skills.

Max is looking for a tool that enables him to journal his thoughts and emotions, while also incorporating visual elements like images to enhance his creative documentation.

## Needs

Max needs an app that allows him to write and visually document his creative process and sources of inspiration.

An essential feature for Max is the ability to log his emotional state, as it helps him understand the impact of his mood on his creative work.

**Max, Age 30**  
Graphic Designer &  
Photographer

## Challenges

Consistently capturing and organizing his creative thoughts and visual inspirations.

Finding a tool to help him monitor the influence of his emotions on his artistic output.

## Motivations

Max's motivations are rooted in artistic growth and self-expression, driving his creative journey and documentation.

## Usage scenario

Max can use LifeCanvas as a creative journal to record his ideas, document his projects, and monitor his emotional states. He can combine text, images, and emotions in his entries, providing a comprehensive platform for his artistic journey and self-expression.

## User Interface Preferences

Max prefers an interface that encourages creative expression, with features like writing and documentation tools and seamless integration of images.

## Customization and Personalization

Max places importance on the ability to personalize his journal's appearance and structure, as it enhances his creative process and allows him to tailor the platform to his artistic needs.

## Impact

Enhanced creative output and a well-documented artistic journey.

## Competitor Analysis

In the process of researching for my mobile application project, I came across various apps that shared features similar to those I had in mind. The apps mentioned here are only a fraction of the many I have looked into. I left out some apps from this list because they had too few reviews or downloads. Based on this research, I've selected a handful of these applications for a more in-depth analysis.

Journal Affirmation Daily Zen Vision Board

## Reviews of Gratitude: Self-Care Journal App

- The backup feature is only available for those with a premium subscription.
- Users have encountered problems with journal backup and accessing their journal across different devices.
- Certain app ads have been found to be upsetting by some users, particularly in emotionally difficult situations.
- There is a call for additional affirmation audios and more vision boards, without the necessity to upgrade to a premium subscription.
- The cost of the annual premium subscription is viewed as overly expensive by some users.
- Nonetheless, despite these issues, the app is well-received for its simple and user-friendly design and functionality.

## Reviews for 'Journey: Diary, Journal, Notes'

- The app's features and design have been widely praised by many users.
- Some users consider the app to be on the pricier side.
- Reports of occasional bugs and glitches have emerged.
- The absence of an auto-save feature has raised concerns about losing in-progress entries during app crashes.
- There are issues regarding a dependable backup system, particularly noticeable when users switch devices.
- Restrictions on multimedia uploads, including for premium subscribers, are a source of frustration.
- Users have also pointed out problems with slow sync.

- Overall, while the app receives positive feedback from many users, there are areas that need enhancement to further improve user satisfaction.

#### Reviews of 'My Diary - Daily Diary Journal'

- Common criticisms include a costly premium subscription, the occurrence of occasional inappropriate advertisements, and the lack of features such as an undo and reset button.
- Users have limited options for customizing backgrounds and fonts.
- There are reports of glitches and bugs, especially when writing entries or notes.
- On the plus side, many users value the option to buy the app outright instead of paying a monthly subscription.
- The app's backup feature is considered a strong point, along with its easy-to-navigate interface.
- Restrictions on the number of photo uploads have been noted as a negative aspect.

- The app is commended for its range of useful templates, stickers, and emoticons.
- The design and aesthetic themes of the user interface receive high praise.
- Overall, most users find the app's features beneficial and practical.

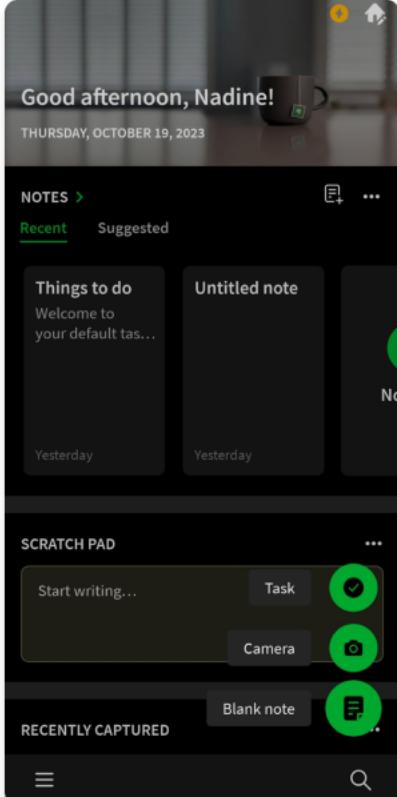

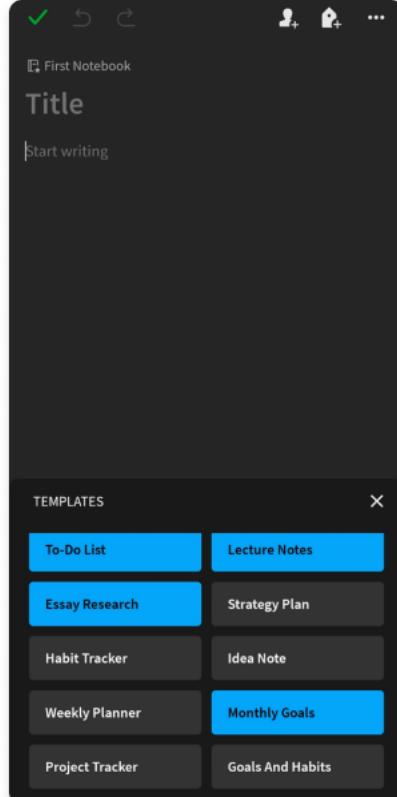

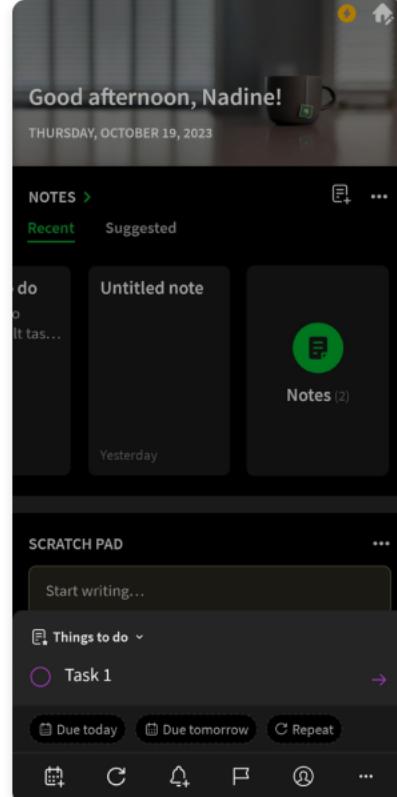

# Evernote - Note Organizer

Evernote Corporation

4.4★  
1.8M reviews

## Reviews of 'Evernote – Note Organizer'

- There are user-reported performance issues, such as lag during scrolling and unresponsive buttons.
- Problems include accidental note deletion and frequent ads promoting subscription plans.
- The app's interface is viewed by some as outdated, yet it's also acknowledged as an effective note-taking tool with satisfactory features.
- Concerns about security have been mentioned.
- Users who don't pay for the service encounter restrictions in offline access and challenges in saving multimedia content.

- Reports of sync issues and sporadic app crashes have surfaced.
- The basic version of the app is seen as somewhat limited, but it still provides necessary features.
- The search functionality receives commendations for its efficiency and ease of use.
- Overall, most users express satisfaction with the array of features offered by the app.

## Design Choices

Application Name	Design Choices
<b>Gratitude: Self-Care Journal</b>	<ul style="list-style-type: none"> <li>- The design focuses on simplicity and positivity.</li> <li>- Features a soothing color palette and clear, legible typography.</li> <li>- Offers a straightforward and user-friendly interface.</li> </ul>

INPUT	PROCESS	OUTPUT
User clicks on 'Login' buttons located on the login page.	<p>The user is redirected to the respective Google or Facebook login page where the user must enter their credentials on their respective platform.</p> <p>If successful</p> <p>Google or Facebook prompts the user to grant permission for the application to access their profile information, where the user consents to share their information.</p> <p>Google or Facebook redirects the user back to the application.</p>	<p>If successful:</p> <p>The application will set the user's profile information.</p> <p>The user is directed to the Me Page.</p> <p>If unsuccessful:</p> <p>The user is not logged in.</p> <p>An error message is displayed to the user, indicating the login process failed.</p>
User clicks on 'Skip Login' link located in the login page.	The user clicks or taps the 'Skip Login' link on the login page, the application checks for user information, and provide guest access.	The user gains access to the application and is directed to the Me Page without having any user information showing.
User clicks on 'Bell' Icon located on the right-side of the top menu.	The application recognizes the user's action and interprets it as a request to access reminders.	The user is directed to the reminder's page, where a list of reminders is displayed to the user.
User clicks on 'Burger' Icon located on the left-side of the top menu.	<p>User clicks the 'Burger' icon on the left side of the top menu.</p> <p>The application recognizes the user's action and triggers the display of a side menu overlay.</p>	The user is presented with a side menu overlay.
User clicks on 'Me' tab, 'Planner' tab, 'Media' tab, 'Inspire' tab located in the bottom menu.	The application recognizes the user's interaction with the selected tab.	The user is directed to the corresponding page (e.g., 'Me' page, 'Planner' page, 'Media' page, 'Inspire' page).
User clicks on 'Add/Create' button located at the centre of the bottom menu.	<p>The application recognizes the user's interaction with the 'Add/Create' button.</p> <p>The application triggers the display of an overlay menu or options.</p>	The user is presented with an overlay menu of options at the bottom-center of the screen.

User clicks on 'Entry,' 'Note' and 'Task' button located in the 'Create/Add' overlay.	The application recognizes the user's interaction with the 'Entry,' 'Note' or 'Task' button.  The application triggers the transition from the overlay to the text editor.	The user is directed to the text editor, which provides the user with a blank canvas for creating text-based content.
User clicks on 'Canvas' button located in the 'Create/Add' overlay.	The application recognizes the user's interaction with the 'Canvas' button.  The application triggers the transition from the overlay to a drawing editor.	The user is directed to the drawing editor, which provides the user with a blank canvas and drawing tools.
User clicks on 'Reminder' button located in the 'Create/Add' overlay.	The application recognizes the user's interaction with the 'Reminder' button.  The application transitions from the overlay to the reminder editor.	The user is directed to the reminder editor where the user is provided with fields and options to create a new reminder.
User clicks on 'Undo' button located in the upper menu of the Text editor.	The application initiates the 'undo' action, reverting the most recent user action in the text editor.	The user's most recent action in the text editor is undone.
User clicks on 'Redo' button located in the upper menu of the text editor.	The application recognizes the user's interaction with the 'Redo' button.	The user's most recently undone action in the text editor is redone.
User clicks on 'Save' button located in the upper menu of the Text, Task and Reminder editor.	The application recognizes the user's interaction with the 'Save' button.  The application initiates the 'save' action, preserving the changes or data entered by the user in the respective editor.  If Successful:  The user's work or data in the Text, Task, or Reminder editor is successfully saved.	If Successful:  The saved content or information is preserved and can be viewed within the corresponding pages of the application which can be accessed and edited when necessary.  If Unsuccessful:  The user is notified of the save failure with an error message.
User clicks on 'Three dot' button located in the upper menu of the Task, Note and Reminder editor of existing notes,	The application recognizes the user's interaction with the 'Three-dot' button.	The user is presented with an overlay menu that provides additional options for managing existing notes, journal entries, reminders, or tasks, these options include, delete and archive.

entries, reminders, and tasks.

User clicks on 'Delete' icon located in the 'Three dot' overlay in upper menu of the Entry, Task, Note and Reminder creator.	The application recognizes the user's interaction with the "Delete" icon.  The application initiates the process of deleting the selected Entry, Task, Note, or Reminder.  The user is prompted with a confirmation dialog to ensure they intend to delete the item.  After confirmation, the application proceeds to move the deleted item to the 'Trash' folder.  The application starts a countdown on the item for permanent deletion after 30 days.	The selected Entry, Task, Note, or Reminder is moved to the 'Trash' folder.  The user receives confirmation that the item has been successfully deleted.  The deleted item is stored in the 'Trash' for a period of 30 days.  The user can choose to 'Restore' the item at any time during the 30-day retention period.  After 30 days, the item is automatically deleted from the 'Trash' folder.
User clicks on 'Archive' icon located in the 'Three dot' overlay in upper menu of the Entry, Task, Note and Reminder creator.	The application recognizes the user's interaction with the 'Archive' icon.  The application initiates the process of archiving the selected Entry, Task, Note, or Reminder.  The item is moved to an 'Archive' folder.  The selected Entry, Task, Note, or Reminder is archived.	The user receives confirmation that the item has been successfully archived.  The item is no longer displayed in their corresponding page.  The user can choose to 'Unarchive' the item.
User clicks on Search textbox located on the top menu.	The application recognizes the user's input in the search textbox.  The application processes the user's query and initiates a search function.  The search function checks the existing cards within the application's relevant sections to find cards that match the search criteria using names and dates.	The user is presented with search results that match the entered query, displayed on the screen.
User clicks on 'Quotes' tab, 'Affirmation' tab located on the top menu of the Inspire page.	The application recognizes the user's interaction with the selected tab.	The user is directed to the corresponding page ('Quotes' page or 'Affirmation' page).

User clicks on Button in the categories section found in the Quotes and Affirmation tabs in the Inspire page	The application recognizes the user's interaction with the selected button.  The application processes the user's input and identifies the type or category of affirmations or quotes the user wants to view.  The application filters and displays affirmations or quotes specific to the chosen category or type.	The user is provided with content corresponding to the type or category they selected.  The content associated with the chosen category is displayed on the screen, allowing the user to read or interact with affirmations or quotes of the selected type.
User clicks on Media files located on the media page.	The application recognizes the user's interaction with the selected media file.  The application initiates the process of opening a media preview page.	The user is directed to the media preview page.  The media preview page displays the selected media file for the user to view and interact with.
User clicks on 'close' icon located on the opened media page.	The application recognizes the user's interaction with the 'Close' icon.  The application initiates the process of closing the media preview page.	The media preview page is closed, and the user is taken back to the 'Media' page,
User clicks on 'Notes' tab, 'Calendar' tab, 'Tasks' tab located on the top menu of the planner page.	The application recognizes the user's interaction with the selected tab.	The user is directed to the corresponding page ('Notes' page, 'Calendar' page, 'Tasks' page).
User clicks on 'Edit' icon located in the text, task, and reminder editor after opening an existing task, note, journal entry and reminder card.	The application recognizes the user's interaction with the 'Edit' icon.	The user is directed to the edit mode of the text, task, or reminder editor for the selected card.  The card's content becomes editable, and the user can make changes to the information within the card.
User clicks on 'Note,' 'Task,' 'Reminder' and 'Entry' card located in the Me page, Planner's Calendar, Tasks and Notes tabs and the Reminders page.	The application recognizes the user's interaction with the selected 'Note,' 'Task,' 'Reminder,' or 'Entry' card.	The application opens an uneditable text editor for the selected card, displaying the content of the card without allowing the user to make changes.  If Unsuccessful:  The user is notified of the error or issue with an error message.
